CHRISTOPHER HAVENAR, CTP

Senior Financial Analyst · Certified Treasury Professional
Kiefer, OK · (918) 734-4527 · chris@havenar.lol · havenar.lol

PROFESSIONAL SUMMARY

Strategic Senior Financial Analyst and Certified Treasury Professional with 12+ years of progressive municipal finance experience spanning revenue operations, treasury management, debt administration, and capital planning. Expert in managing $1+ billion in municipal debt, budgeting 300+ capital projects, and driving operational improvements through Python automation and data analysis. Proven track record in financial forecasting, regulatory compliance, and cross-functional leadership. Holds the Google Data Analytics Professional Certificate and actively pursuing the CPFO designation.

CORE COMPETENCIES

Financial Forecasting & Modeling · Municipal Debt Administration · Capital Project Budgeting · Treasury & Cash Management · Investment Analysis · Arbitrage Compliance · Budget Development · Python Automation · Data Analysis · ERP Systems Administration · Process Optimization · Stakeholder Presentations · Staff Training & Mentorship

PROFESSIONAL EXPERIENCE

City of Tulsa

Financial Forecast Analyst

March 2023 – Present

- Oversee budgeting, appropriation, and financial tracking for 300+ long-term capital projects valued at $500M+, spanning streets, bridges, public safety, and parks infrastructure.
- Build and maintain multi-year financial models for revenue projections, expenditure forecasts, and economic indicators used in annual city budget planning.
- Developed Python automation scripts that generate budget amendment documentation, cutting preparation time by 60% and reducing manual errors.
- Lead strategic fund reallocations and budget amendments, improving capital deployment efficiency by 25%.
- Present bond impact analyses and capital funding updates to the Sales Tax Overview Committee, Mayor, and senior city leadership.
- Conduct financial feasibility studies for public/private economic development projects, analyzing loan requests and project viability.
- Coordinated appropriation transfers across two major departmental reorganizations, maintaining continuity for 300+ active projects.

Treasury Analyst II

July 2016 – March 2023

- Structured and managed $1B+ in municipal debt across 25+ bond issues and state loans, securing favorable interest rates and full regulatory compliance.
- Identified and executed strategic refinancing opportunities that saved $2M+ in interest costs.
- Designed sophisticated financial models for debt coverage ratios, tax levy projections, and utility rate structures, improving forecast accuracy by 15%.
- Managed city investment portfolio — analyzing liquidity, monitoring security status, and making purchase/sale/transfer recommendations across banks, savings and loans, and brokerages.
- Monitored arbitrage regulations and coordinated bond sale documents with legal counsel and underwriters.
- Prepared comprehensive financial reports for City Council, Mayor, department heads, and the Tulsa Metropolitan Utility Authority (TMUA).
- Served as interim supervisor during absences, overseeing treasury operations and staff; provided internal control oversight for cash funds and revenue processing.

Treasury Analyst I

May 2015 – July 2016

- Supervised daily revenue processing for utilities, Municipal Court, and general revenue — processing $5M+ monthly with 99.5% accuracy.
- Implemented automated revenue tracking systems, reducing manual processing time by 40%.

- Tracked investments, City revenue bonds, and debt service payments; monitored arbitrage compliance for outstanding bond issues.
- Researched and resolved 100+ monthly payment discrepancies, maintaining a 95%+ first-contact resolution rate on treasury inquiries.
- Trained and mentored 5+ revenue processing staff on treasury procedures and system applications.

Revenue Inspector & Processor *July 2012 – May 2015*

- Processed 500+ daily revenue transactions — business licenses, utility payments, municipal court fees, permits, and taxes — at 99.8% accuracy.
- Managed $10M+ in annual collections; determined license requirements, collected fees, and investigated unlicensed business complaints.
- Resolved 50+ customer disputes monthly through account research and reconciliation; audited and balanced register accounts daily with zero discrepancies.
- Utilized Microsoft Access and Chameleon database for financial record management and reporting.

KEY PROJECTS & LEADERSHIP

- Led financial structuring for Tulsa's $510M Vision Capital Improvements Program — coordinating with economic development, legal, and finance teams through the full issuance lifecycle.
- Serve as Functional Area Lead (FAL) for Project Ledger in the Tyler Munis ERP system — primary trainer and technical resource for 20+ staff members across departments.
- Spearheaded implementation of new credit card payment processing and banking software, improving transaction efficiency by 30%.
- Assisted in building three consecutive annual City of Tulsa budgets with a focus on capital planning and multi-year projections.
- Designed comprehensive financial models for utility rate studies, debt service projections, and economic impact analysis.

TECHNICAL SKILLS

Programming: Python (primary) — Pandas, data automation scripts, custom financial tooling
